These semi-detached houses are being built on the La Finca Golf Resort near Algorfa, a very popular area in the middle of nature. Hikers, cyclists and mountain bikers can enjoy this beautiful green area. In addition to various sports facilities such as a gym, padel and tennis courts, the luxurious Golf Resort also has a 5-star hotel with a Spa and several good restaurants. These very beautiful homes located on a closed urbanization with its own driveway immediately catch the eye because of the beautiful materials used on the outside and the tasteful construction of the very large gardens of 392 m². Much has also been done on the inside to obtain a luxurious appearance, such as the void created in the living room, made possible by the extra high ceiling. Another beautiful luxury detail are the remarkably high doors up to the ceiling. The Villas have a spacious living room including open kitchen of 36 m², 3 bedrooms and 2 bathrooms, 1 of which is en-suite. The houses are equipped with a cooking island, underfloor heating in the bathrooms and the entire apartment has an integrated air conditioning system. There is also a basically unfinished large basement of 102 m² which can be...
